Flexaboll™

Retro-reflective self righting bollard

Our unique quick-release bollard, saving you time and money

Key Features:

Rigid:

Rigid moulding protects the reflective panels from cracking and delaminating on vehicle impact.

Double Aspect:

Reflective panels can be fitted each side of the bollard.

Standards Compliant:

BS 8442:2015 compliant.

Retro-reflective Panels:

Excellent visibility day or night.

Reliable:

Moulded from a highly durable and exceptionally strong grade of polyethylene.

Reduced Replacement Cost:

Quick and easy replacement of bollard top via a single attachment bolt.

Reduces replacement cost by 30%

Additional Features:

Consistency:

Sits alongside the Pudsey Diamond range of illuminated and reflective bollards to give a uniform street scene.

Low Maintenance:

Smooth finish allows for easy cleaning.

Colours:

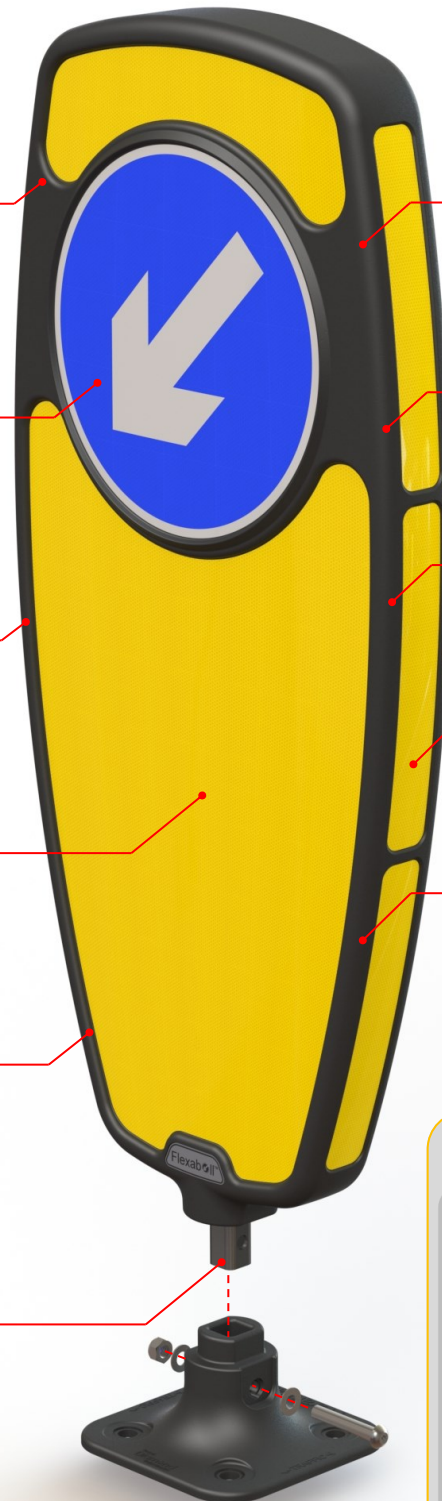

Mouldings available in either black or white.

Recessed Panels:

Added protection against vandalism and weathering.

Recyclable:

Constructed from recyclable materials.
