

Glowboll™

Our Glowboll is a translucent retro-reflective traffic bollard, providing the perfect solution to illuminating and de-illuminating. Taking the proven robustness of the Visaboll shell, Glowboll is manufactured from an innovative translucent material.

Main Features:

- CE accredited
- L2 luminance (depending on base light type)
- Compliant to BS 8442:2006 section 14
- Compliant to BS EN 12899-2:2007
- Retro-fit options for existing base lights
- Modular design for easy replacement of solar panel, sign face and bollard top
- Fully reboundable
- Switch between non/illuminated with ease

Materials:

- 100% recyclable molded translucent polyethylene body
- Acrylic retro-reflective pannels

Choose from:

- Single aspect
- Single aspect with rear reflective
- Double aspect (rear signface non-illuminated)
- Anti-graffiti coating
- Tamperproof fixing option
- Any UK standard signface
